Block B, Holding no. 608, Konabari, Gazipur, Bangladesh

Career Objective

To secure a challenging software development position in a fast-paced, competitive environment where I can push my limits, expand my technical skills, and contribute to the organization's success, while collaborating with innovative teams to deliver high-quality software solutions.

Experience

Junior Software Developer

Brainery IT (Part-time)

2024/05 – 2024/10

IT Training & Incubation Center, KUET

- Implemented two projects using Autoencoder, Logistic Map and Chaotic Neural Network.

Technical Skills

Programming Languages

- C, C++ ,Python, C#

Web Technologies

- ASP.NET, JavaScript, Bootstrap, HTML, CSS

App Development

- JavaFX, Xcode

Other Tools and Frameworks

- MySQL, Oracle SQL, Git & Github, Blockchain, Debian Linux

Achievements

DATATHON, BITFEST-2025, CSE, KUET

- Selected for onsite presentation round as of top 20 team clearing out 150 teams from different universities.

KUET Technical Scholarships

- Session 2019-20, 2020-21, 2021-22

Board Scholarships

- Dhaka Education Board

Extra Curricular Activities

Executive in BITFEST-2025

- 3rd CSE Festival, KUET

Vice President at Gazipur Association , KUET

- 2024/05 - 2025/02

Problem Solving Skills

- Solved 500+ problems and participated onsite and online programming contests.

Codeforces

- rian1110101, solved 360+ problems

LeetCode

- rian1110101, solved 50+ problems

HackerRank

- expc00, solved 50+ problems

AtCoder

- rian1110101, solved 50+ problems

Education

B.Sc. in CSE

Khulna University of Engineering & Technology (KUET)

- CGPA: 3.55/4.00 (Till 7th semester)

Major Projects

Blood Bank

- An iOS mobile app that finds nearby blood donor quickly
- Swift, JSON, Firebase, Telegram API.

Online Tailor Shop

- An ecommerce site where customers can order, and purchase tailored clothing.
- ASP.NET Core MVC (.NET 6.0), MS SQL

Fake Product Detection Using Blockchain

- A decentralized App that ensures product authenticity using unique QR code.
- Solidity, Node.js, Web3.js, Truffle, Ganache.

ATM Management System

- A desktop app with functionality of ATM for essential banking operations.
- Java, JavaFx, MySQL
